About Us

vytio hospitality

Experienced

Founded in 1994, Vytio (formerly InfoValue) was a pioneer in IPTV technology.

Dynamic

With our experience and expertise, Vytio is able to adapt and evolve to new trends and technologies.

Global

Vytio has implemented its solution in hotels all over the world.

About

vytio hospitality

Reliability

Vytio for Hospitality is built on the proven, time-tested, and reliable InfoValue IPTV platform.

Flexibility

The InfoValue IPTV platform was built with flexibility & openness in mind. Allowing for the development and easy addition of new features and functionalities

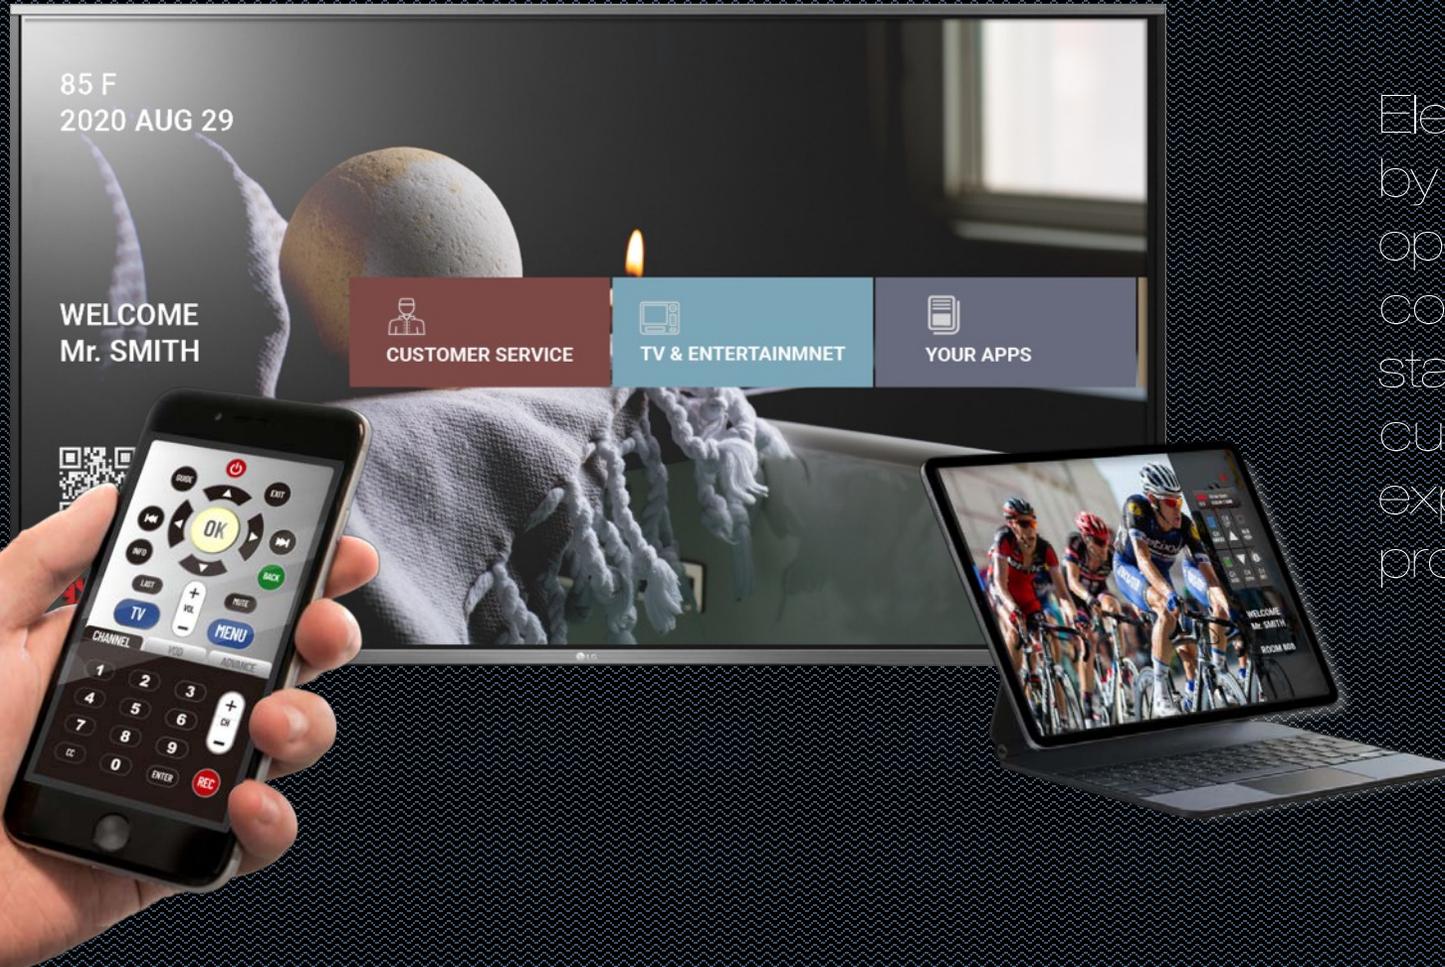

Scalability

Vytio for Hospitality grows with the hotel. Hoteliers can easily add clients and features without interruption.

Mission

vytio hospitality

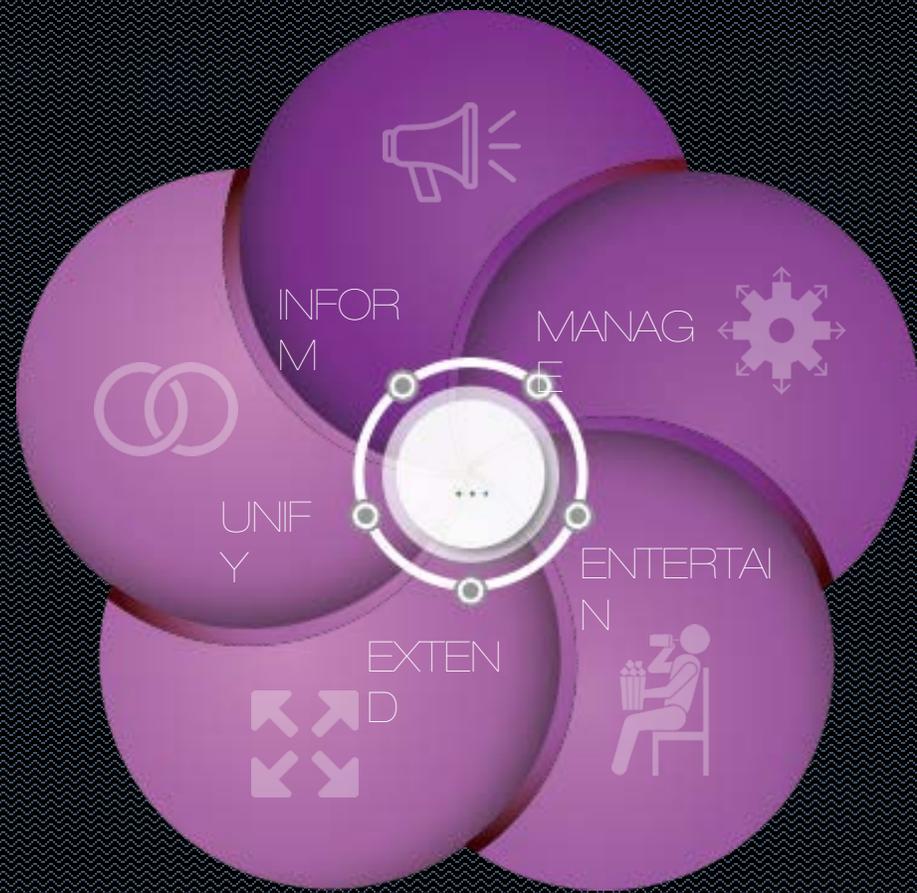

Elevate the guest experience by utilizing smart technology, opening lines of communication between the staff & guests, and providing a customized, and unified experience across the entire property.
